Declaration by the candidate:

THE UNIVERSITY OF TRANS-DISCIPLINARY HEALTH SCIENCES AND TECHNOLOGY

Private University Established in Karnataka by ACT 35 of 2013

BENGALURU – 560064

DECLARATION BY THE CANDIDATE

I declare that this thesis entitled "Analysis of hospital based Ayurvedic clinical practice to gain Real World data knowledge" submitted for the award of Doctor of Philosophy to THE UNIVERSITY OF TRANS-DISCIPLINARY HEALTH SCIENCES AND TECHNOLOGY, Bengaluru, is my original work, conducted under the supervision of my guide Dr. Ashwini Godbole. I also wish to inform that no part of the research has been submitted for a degree or examination at any university. References, help and material obtained from other sources have been duly acknowledged.

I hearby confirm the originality of the work and that there is no plagiarism in any part of the dissertation.

Place: Bengaluru Signature of the candidate:

Date: 21Sept2023

Name of the candidate: Vinay Mahajan

Reg. No.: 20916020106

(Month Year of Admission) Dec 2018

Declaration by the Supervisor:

THE UNIVERSITY OF TRANS-DISCIPLINARY HEALTH SCIENCES AND TECHNOLOGY

Private University Established in Karnataka by ACT 35 of 2013

BENGALURU – 560064

CERTIFICATE

This is to certify that the work in this thesis "Analysis of hospital based Ayurvedic clinical practice to gain Real World data knowledge" submitted by Vinay Mahajan was carried out under my supervision. No part of this thesis has been submitted for a degree or examination at any university. References, help and material obtained from other sources have been duly acknowledged. I hereby confirm the originality of the work and that there is no plagiarism in any part of the dissertation.

Research Supervisor:

Date: 21Sept2023

Name, designation & address details: Dr. Ashwini Godbole, Associate Professor, Ayurveda Biology and Holistic Nutrition, TDU.

Acknowledgement

I would like to acknowledge the following people who provided me with an opportunity to learn new skills and contribute to this scientific experiment. 2 key members of the doctoral advisory committee:

Dr. Ashwini Mathur, a very senior statistician, and a thought leader in clinical trials, got me introduced to the institute and encouraged me start with my PhD work. He helped in conceptualizing fundamental ideas. He reviewed the work and provided valuable inputs on the final thesis.

Dr. Girish Tillu, a very senior vaidya scientist provided the ayurvedic conceptual understanding. He offered unique insights from a practicing vaidya's point of view into usage of scientific tools developed for the thesis work.

Other notable contributions: Dr. Ashwini Godbole for guiding and streamlining various ideas and scientific concepts into a cohesive thesis document. Dr. Poornima Devkumar, and Dr. Prasan Shankar for being the co investigators and providing support from hospital management. Ravi Kumar G and IT team from university on various important administrative aspects and technical areas. Dr. Vivek Sanker and Dr. Sriranjini Jaideep for their contributions on ayurvedic concepts and clinical trials approaches. Prof. Darshan Shankar on his vision of having ayurvedic data captured electronically from the initiation of the hospital, encouraging scientific thinking, and pushing the boundaries of research. Last but not the least family – my wife

Varsha, my son Vyom, parents, in-laws, numerous colleagues from organization and sorry if I have missed someone.
